

November, 2020

Manitowoc Public School District (MPSD) is pleased to announce an expansion of our partnership with *Holy Family Memorial Behavioral Health (HFMBH) and Kimberley Welk & Associates LLC, Family Therapy Center (KWAFTC)*. HFMBH and KWAFTC will offer school-based mental health through tele-health services to all students of MPSD.

We know that COVID 19 has impacted everyone in some way. The MPSD, HFMBH and KWAFTC are committed to do all we can to help support families through these challenging times. The mental health and wellness of our students, families, and staff has an enormous impact on quality of life, student learning and overall personal growth and development. In these challenging times we know that attending any appointments in person can be difficult. In an effort to alleviate that obstacle, our partners are available through tele-health. Individual tele-health therapy is offered to help students build skills to handle low self-esteem, sadness, loneliness, addictive behaviors, stress, anxiety, personal loss, trauma, relationship struggles, family challenges and more. HFMBH and KWAFTC will work with all families to determine the best and most affordable means of payment through personal insurance.

If you are interested in learning more or consulting with staff to see if this might benefit your child, please contact the school and ask to speak with your School Counselor or contact Michael Morgen, District Mental Wellness - Safety Coordinator.
