Welcome to Washington Junior High!

Washington Junior High School provides a compassionate community that values students constructing knowledge, within a discipline that has value beyond school. This hard work demands perseverance and courage. Our team believes that all students can learn at a high level, and we will do whatever it takes to help individual students meet that high level.

Our staff truly cares about students, working to provide an atmosphere and opportunities that allow for student academic growth, as well as social and emotional growth. Teachers and staff show respect and compassion for each student, regardless of background or ability. Staff members put a great deal of energy into meeting each student at his or her level and working to move each one forward.

We are lucky to have an active parent organization that works to support our school and students with fundraising events and other activities. We value parent input and use this group to support and positively guide our school community. Our parent organization and staff raised money for Be The Change/Washington Cares providing basic needs to our low-income families.

Administrators, teachers and staff strive to help students succeed in and out of the classroom. The opportunity to participate in athletics and other extracurricular activities fosters each student's creativity, ingenuity and self-discipline, traits that boost all other areas of learning.

What makes Washington Junior High School special?

Students have many course options including Spanish, German and French; seven Art classes; five Business classes including Coding; four Family and Consumer Education classes; Band, Chorus and Orchestra; Health; six Technology classes including Robotics, Media Production, Creative Communications, and more.
